

# THE AMERICAN FUTURE

By FRED FARREL

In the distant future, North America will be a white supremacist's dream. The population will be 100% white. Every last Jew and every last Negro will be killed. Even the noble Red Man, the American Aborigine, will find his extinction. Every last one will be hunted down and killed. Nobody except Whites will live here. You will be able to search from Maine to California, from the Great Lakes to the Gulf, without finding a single culture alien anywhere in the country. The Whites who will live here at that time will be very happy. Their well-ordered industriousness will give them a solid prosperity which will serve as the foundation of an inspired cultural and spiritual life. The tall spires of their churches will be the inspiration of their daily lives. Their songs will spring from their own hearts and souls, instead of from the trashy Jews of Tin Pan Alley. It will be a wonderful country. The Whites who will live here at that time will not be descendants of the present-day American Whites. They will be a mixture of Germans and great Russians who will be brought in as immigrants after the present American population is wiped out 100% in World War III.

Be sure that an exhaustive and detailed plan to bring this about already exists in Moscow. Be sure also that this plan has a splendid chance of success. Russia does not want a Communist revolution in America. They do not want to "take over" the American civilization; God knows, they would need to have rocks in their heads to want such a mess on their hands. The Russian strategists view the American people of all races much as a householder views termites; that is to say, simply as an extermination problem. The Russians want the American land, but not the American people. They consider the present day America to be a hopeless demographic mess, which indeed it is. They do not want the preposterous "American economic system." What they want is this land, denuded of its present inhabitants and its present social and economic structure. They have plenty of people; indeed, they have a bad overpopulation problem and will need an outlet for surplus population.

We should forget the arguments about "Communism." In an overcrowded world, the ideological battle is over and the fight for bare survival has begun. Naturally, the Russians are interested in THEIR survival not in OUR survival. They need our land, but they don't need our rascal hides. They don't need our hungry mouths devouring food which could just as well go into the bellies of their own people. Let us face it: Their appraisal of the situation is ever so much more realistic than ours. We are still living in the good old nineteenth century past, when men argued over such trivial matters as "economic systems" and "political philosophies."

Is there any way in which we, the heterogeneous mass of squirming humanity of various races who now inhabit this choice piece of North American real estate, could pull together and survive? The present-day world will not pander to the unlimited fulfillment of all of our undisciplined desires. Only a very narrow range of possibilities will occur. If we miss just one step, we are goners.

If we are to understand the present-day America, we must first bury the beloved image of the old America. The old America is forever gone, and it will not return. "Conservatives" still gallop around the countryside promising, by some magical hocus-pocus, to waft us back to the days of McKinley. This is mere entertainment for the gray-haired set. It is very popular among them. If you attend one of their meetings and allow yourself to be mesmerized by their slogans, it is easily possible to imagine that they are the spearhead of a vast revival of Americanism. In fact, Con-

servatism is a fine hobby for elderly retired people. They are nice people, and if they want such a hobby, they ought certainly to have it. One by one, these elderly people will pass from the scene. The hearse will come, the choir will sing, and Conservatism will be interred along with them. Today there is no such country as the one in which the Conservatives think that they are living.

Power is highly concentrated in a very few hands. The ruling elite possesses incomparable methods of manipulating and dominating the people. The ruling elite is able to thwart the desires of the majority. In recent years the ruling elite has forced the White Majority to accept an entirely new relationship to Negroes. They have forced the White Majority to travel a road which it was extremely reluctant to travel. The power which was necessary to force the White Majority along this road was enormous. But this is only the beginning. The ruling elite has decided to destroy the White Majority. The White middle class will be pauperized, as they were in Germany in the 1920's. The new ruling class of America is Jewish, and they regard the White middle class as potentially dangerous political rivals. The Jew is very much in the business of destroying competitors in order to make his own power secure. Indeed, we, the White majority in America, are in the process of being destroyed by the Jewish ruling class of America. We know by now that we can expect no mercy from them. They have sent shock wave after shock wave of culture-destruction and character-destruction through the ranks of our young people. They use the schools to destroy the minds and character of our children. They have stripped us of our political existence. We are now THINGS owned by the Jews.

How did we get into such a predicament?

We were sold out by our own leadership class, who decided to merge with the Jews. The Jews are the noisy element of the corrupt and decadent American ruling class; but the rich WASPS are right in there with them as silent partners. The Jewish seduction of all of our leadership class is the real secret of Jewish success in America. The present-day American ruling class is the wickedest ruling class any nation ever had. Under their rule, America has moved into areas of evil hitherto unexplored in all of the centuries of human history. Today the American society is permeated with evils of a new and novel kind, not seen before in the world.

The rift between the White Majority and the ruling class is complete. We hate their guts. They hate ours. They are out to destroy us. They have the power. We are stripped of every kind of political representation. We are allowed no literature or culture of our own. We have no churches; the churches which used to be ours belong to THEM now. For forty years we have not been allowed to publish a single book truly representative of the aspirations of our own native culture. The Gentile is seldom allowed to practice the literary trade at all. If he is allowed to practice it, he must write what THEY want, not what his own people need and want. We are the completely voiceless element in American society. We have no spokesmen at all, not in big business, not in politics, not in religion. This total suppression of us is extremely dangerous to the Jewish ruling class. They do not begin to understand our total disaffection.

Whittaker Chambers said in his book "COLD FRIDAY" that the American people will persecute anybody who really tries to save them. We have become suicidal. Bluntly, we would rather be dead than slave. We would rather perish than live under the ignominy of enslavement to the Jews. The Jews didn't care, as long as things were going well for them in the rest of the world. They thought that the world could do just as well without us in any case.

Now that things are no longer going well for them in the great world, they are taking a renewed interest in us.

Let us review the background of this situation.

The cold war is Jewish. The Jewish aim in the cold war is not to "Save Us from Communism" but to meddle in the internal politics of Russia. This is a matter of vital importance to World Jewry. The professional anti-Communists of America have never really fought Communism; they have only lied about it for fifty years. In consequence, few Americans understand the internal struggle within World Communism. It is appallingly simple. It is a straight RACIST battle between Jews and Gentiles. We should not be surprised that such a battle is raging inside World Communism. Jews and Gentiles almost always have hated each other any time they have come into contact with each other. Why not inside Communism? The Gentile faction in World Communism are called "Stalinists," after the late Josef Stalin, a former secret agent for the Czarist secret police, who was never a Communist in his life, even when he was Secretary General of the Communist Party. The Jewish faction are called "Trotskyites," after the late Leon Trotsky, a well-connected Jewish lad who was related by marriage to the banking Warburgs. These two factions within World Communism are like Hatfields and McCoys. They are absolutely irreconcilable.

This conflict is a disaster for the Jews. It is absolutely essential for them to control both the U.S.A. and the U.S.S.R. Today, they control the U.S.A. but not the U.S.S.R. The British Israel racketeers, who have ulterior motives of their own, always lie about this. They say that the Jews are still running Russia. They might as well stop lying about it; it will do them no good. Today Russia is a gargantuan armed camp all the way from Leningrad to Vladivostok. It is a good armed camp. The economy is a war economy; indeed, the economic system is so thoroughly entwined with the armed forces that it is hard to tell which is which. The people are patriotic and loyal to the system. Kosygin has behind him a much more solid majority than Nixon has. Russia has gone NAZI. The armed forces are for war, and they want war. Most especially, they yearn madly to destroy that great Babylon-on-the-Hudson called New York. They yearn madly to blow the Jewish overlords of the American society over the moon. They also intend to clean out the demographic mess of North America and repopulate the area with people of their own race, whom they can trust, rather than with the present hodge-podge of so-called "American people," whom they regard as ungovernable.

Who can believe that the Jews really rule Russia today?

David Lawrence says in an editorial in U.S. NEWS AND WORLD REPORT: "The people of Russia should rise up and take their government into their own hands, as they did back in 1917." To some people, it is startling to see such a statement in a capitalist magazine. Of course the American-Jewish capitalists are and always have been the principal financial backers of World Communism. They have exported revolution to the whole world for seventy years, all the while mouthing pious "anti-Communist" slogans.

The Stalinists control Russia. The Trotskyites control America. The American people are not even in the game. They are now two-legged cattle owned by the Jews, and automatically committed to whatever side the Jews choose for them. The great Rothschild stooge, Winston Churchill, declared the cold war on Russia in a speech at Fulton, Missouri many years ago. Who can doubt that the cold war is Jewish when it was declared by Winston Churchill? For years the Jews gleefully expected their intellectual power to bring Russia and the U.S.A. into line, so that the two systems could be merged into a Jew-ruled world.
